Dear Will:

I wanted to write you to tell you how pleased we at Orange Lake were to nominate you for an ARDY Award given by our trade association, and for the very important fact that you were selected as a finalist and received the SILVER Award recognition. Finalists in each of these categories are not chosen without significant deliberation by the judges and without excellent job performance.

I was certainly disappointed that the judges did not have the wisdom to select you for the GOLD ARDY because I have been told what an outstanding job you do. But, I am very happy that they validated our nomination of you and selected you as a finalist.

You were a part of a very elite group in our industry to have come that far in the judging process, and I hope that makes you proud of your achievements. It certainly does me and all of us at Orange Lake.

I look forward to seeing you on one of my trips there later this year.

Sincerely,

Spence Wilson
